MASTECH DIGITAL

Intelligence with Efficiency

Why Mastech Digital?

Mastech Digital provides wing-to-wing efficiencies across your experience with SAP HANA. Right from your decision-making process through SAP optimization for migration, implementation, integration, maintenance, and security, Mastech Digital assesses every touchpoint to deliver productivity and better returns on your SAP HANA investments.

Consulting Services

Delivered using a global delivery framework and backed by a strong team of SAP-certified consultants, Mastech Digital offers SAP Basis support, SAP cleanup, and IoT-based solutions on SAP HANA.

Mastech Digital Navigator

Our navigator-based program identifies your current location via our proprietary BizTech workshops. We identify your destination in these workshops and deliver an actionable strategic charter identifying what needs be done, along with a playbook that details the journey at a task level.

Fast-Eff-Migrate Methodology

Through our proven Fast-Eff-Migrate methodology, we construct an optimization process that best suits your SAP BW environments. We offer assured levels of efficiency of at least 40% in your BoH migration projects.

Digital Monetization to IoT

IoT is one of the biggest disrupters in global competitiveness since the computer. We provide Rapid Business Services (RBS®) and IoT Design Support on SAP HANA starting from digital monetization to IoT enablement.

Areas of Expertise

SAP HANA simplifies your IT landscape, assembles intelligence from your data, and builds agility and innovation in your business decision making. We make this experience more efficient, monitoring systems, predicting issues, and fixing systems, 24x7x365.

Turnkey SAP Engagement

One handshake for your Infrastructure, Network, Communications, Hardware, Security, Big Data, SAP and SAP HANA, IoT and IT Security.

Basis-in-a-Box

The foundation layer of all SAP applications is the Basis layer, and we provide world-class Basis support to all SAP and SAP HANA requirements, starting from simple migrations to SAP upgrades, optimization, and HANA migrations. We also provide PoC-in-a-box for SAP HANA customers.

Tailored Data Center Integration

Not every customer is suited for an Appliance. We understand your business needs to define long-term strategies, and help you decide between Appliance and Tailored Data Center Integration.

Security

Security is one of the major focus areas as we move to Big Data, SAP HANA, and IoT. We provide security support for traditional SAP applications, standalone HANA and upgrades, BW security, along with end-to-end SAP HANA security support.
